

## Exam 2

---

### Format

The exam will be roughly the same length as Exam 1. The exam will be **open notes/text**. Take time in the next few days to make sure you have complete notes from section 3.1-3.6. However, you may not collaborate with anyone - this means no internet sources or friends. I will make the exam available at 6am on **Friday, April 17** and you will have until midnight to download the exam at a time of your choosing, attempt all problems and upload it to Moodle. There will be a **2 hour window** for you to complete the process. A 5% per hour penalty will be imposed on exams submitted 2 hours after your download time.

### Material

The exam will cover chapter 3.1-3.6. I have provided practice problems for each section under lecture notes.

### Reading

section 3.1-3.6.
